

MVI COMMERCIAL ROOFING SOLUTIONS

STATEMENT OF QUALIFICATIONS.

10+ Years in Business | Nationwide Service | Insured & Bonded

COMPANY OVERVIEW

COMPANY OVERVIEW.

MVI Commercial Roofing Solutions is a commercial and industrial roofing contractor with more than 10 years in business. MVI provides roofing installation, repair, restoration and waterproofing solutions for commercial properties, industrial facilities and technically demanding construction environments across the United States.

Our approach emphasizes quality workmanship, safe execution, clear communication and coordination with general contractors, facility owners and other trades.

AT A GLANCE

10+ YEARS

Commercial & industrial roofing experience

NATIONWIDE

Project support across the United States

INSURED & BONDED

Coverage and bonding documentation available upon request

INDUSTRIES SERVED

INDUSTRIES SERVED.

- /// Commercial buildings and large-scale developments
- /// Industrial and manufacturing facilities
- /// Data centers and mission-critical environments
- /// Energy and infrastructure facilities
- /// Modular construction and equipment buildings

CAPABILITIES & QUALIFICATIONS

ROOFING SOLUTIONS FOR COMPLEX PROJECTS.

CORE ROOFING SERVICES

- /// Commercial and industrial roofing installation and replacement
- /// Single-ply membrane roofing systems, including TPO
- /// Roof repairs, restoration and preventive maintenance
- /// Roof insulation, cover boards and drainage-related assemblies
- /// Roof flashing, seams, penetrations, curbs and transitions
- /// Waterproofing around mechanical, electrical and structural rooftop features

SAFETY & QUALITY

- /// Safety-focused work planning and jobsite coordination
- /// Collaboration with general contractor and facility safety teams
- /// Installation practices aligned with applicable project and manufacturer requirements
- /// Attention to flashing details, waterproofing integrity and quality inspections
- /// Responsive resolution of unforeseen field conditions

SPECIALIZED APPLICATIONS

MVI has experience with roofing work on modular equipment buildings and complex roof assemblies, including 60 MIL and 80 MIL TPO applications. These projects require close coordination of roof penetrations, equipment interfaces, sequencing, inspections and manufacturer installation requirements.

MANUFACTURER SYSTEMS & CERTIFICATIONS

MVI has project experience involving **GAF** and **Duro-Last** commercial roofing systems.

SAFETY FIRST

SAFETY IS OUR NUMBER ONE CORE VALUE.

Every project is planned and executed with safe work practices, jobsite coordination and quality inspections at its core.

EXPERIENCE & PARTNERSHIP

TRUSTED PROJECT ENVIRONMENTS.
